

that want to use renewable energy, so that they can do so; extend and expand wind and biomass tax credits; a new 15 percent tax credit for residential solar energy. He wants to put \$1.2 billion in ANWR proceeds to renewable research, a new tax credit for the purchase of new hybrid or fuel cell vehicles, expand research on hydrogen and fusion energy. It sounds to me like he has concentrated much of his effort on conservation and renewable and alternative energy sources.

In clean-coal technology, President Bush wants to invest \$2 billion over the next 10 years in new clean-coal technologies.

In the area of oil and natural gas, he wants to review the impediments to oil and gas leasing on Federal lands; review regulations on outer Continental Shelf energy development; consider additional leases in the national petroleum reserve in Alaska, and work with Congress to look at the possibility of leasing portions of ANWR which were set aside specifically to look for new energy sources, oil and gas, to work with Congress to look at making some leases in those areas of ANWR for oil and gas exploration.

In the area of nuclear energy, he wants to streamline the relicensing of existing nuclear power plants. There are many nuclear power plants that will be up for relicensing in the near future, which may not ask for relicensing because of the cost and time delays necessary to relicense these plants.

Madam Speaker, nuclear energy is truly one of the cleanest and environmentally friendly forms of energy that we can have. With the technologies that are being developed today at the INEEL in Idaho and in Madam Speaker's district in Chicago, they are developing technologies which are reducing the amount of waste that comes from nuclear power plants. If we continue down this road, energy in the United States will be produced, I believe, largely by environmentally friendly nuclear energy.

In the area of hydropower, the administration recognizes the clean air benefits of hydropower. It also has some problems. It dams up rivers, and that causes problems with fish, as we are seeing in the Pacific Northwest. But hydropower in the Pacific Northwest is very important. Eighty-one percent of the Nation's renewable electricity comes from hydropower. Hydropower supplies approximately 70 percent of the electricity in the Pacific Northwest. The administration supports reform of the relicensing process for hydroplants.

Today in Idaho we have a series of dams in the Hell's Canyon complex which have been there for some 30 years. I can understand the length of time it would take to license a new dam. If you have a free-flowing river

and you suggest putting a dam in there, you would do substantial environmental studies to see the impacts that dam would have on the environment and the species and so forth. Those dams have been there for 30 years. We are trying to get them relicensed. Idaho Power is. It has taken over 10 years to relicense those dams, and millions and millions of dollars. And the people that are going to pay those dollars are the ratepayers. We need to streamline this relicensing process not only for dams but for transmission lines, for transmission pipelines, for oil and natural gas and other things.

Some people will say that this policy concentrates too much in one area and not enough in another area. I will tell you there are no silver bullets. We cannot conserve our way out of this problem. We cannot find enough oil or natural gas to get ourselves out of this problem. Nuclear power will not do it. It takes a combination of all of the efforts that we can bring to bear on this problem.

Conservation, renewable new sources of energy, new technologies, clean coal, new exploration, and nuclear energy, those are the things that are going to be necessary if we are going to address this energy crisis in the long term. And if we do not address this energy crisis in the long term, it will be back to visit us again.

Madam Speaker, I am glad that we have a President that recognizes the importance of reliable, affordable energy and the impact that it has on our economy, and I look forward to working with him to enact this policy.

CORRECTION OF PROCEEDINGS OF MAY 16, 2001, PAGE H2247

Ms. JACKSON-LEE of Texas. Mr. Chairman, I ask unanimous consent to speak out of order for 1 minute.

The CHAIRMAN pro tempore (Mr. SIMPSON). Is there objection?

Mr. FOLEY. Mr. Chairman, reserving the right to object.

The CHAIRMAN pro tempore. The gentleman from Florida (Mr. FOLEY) reserves the right to object.

Mr. FOLEY. I do, but I would like to hear the pending request from the gentlewoman.

Ms. JACKSON-LEE of Texas. I thank the Chairman very much.

First, let me thank the gentleman from Illinois (Mr. HYDE) and the gentleman from California (Mr. LANTOS), they know that I tried to get an amendment in dealing with the human rights violations of Ethiopia. All I expect to do today is to indicate that thousands of students have been detained and they have been released, but—

Mr. FOLEY. I object.

The CHAIRMAN pro tempore. The gentleman from Florida (Mr. FOLEY) objects.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Ms. KILPATRICK (at the request of Mr. GEPHARDT) for today on account of business in the district.

Mr. GANSKE (at the request of Mr. ARMEY) for today on account of traveling with the President.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. BENTSEN) to revise and extend their remarks and include extraneous material:)

Ms. NORTON, for 5 minutes, today.

Mr. SCHIFF, for 5 minutes, today.

Mr. LAMPSON, for 5 minutes, today.

Ms. JACKSON-LEE of Texas, for 5 minutes, today.

Mr. DEFAZIO, for 5 minutes, today.

Mr. LANGEVIN, for 5 minutes, today.

Mr. ENGEL, for 5 minutes, today.

Mr. PALLONE, for 5 minutes, today.

Mr. BENTSEN, for 5 minutes, today.

ADJOURNMENT

Mr. SIMPSON. Madam Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 4 o'clock and 57 minutes p.m.), under its previous order, the House adjourned until Monday, May 21, 2001, at 12:30 p.m., for morning hour debates.

OATH OF OFFICE MEMBERS, RESIDENT COMMISSIONER, AND DELEGATES

The oath of office required by the sixth article of the Constitution of the United States, and as provided by section 2 of the act of May 13, 1884 (23 Stat. 22), to be administered to Members, Resident Commissioner, and Delegates of the House of Representatives, the text of which is carried in 5 U.S.C. 3331:

I, AB, do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties of the office on which I am about to enter. So help me God.

has been subscribed to in person and filed in duplicate with the Clerk of the House of Representatives by the following Member of the 107th Congress, pursuant to the provisions of 2 U.S.C. 25:

Honorable BILL SHUSTER, Ninth Pennsylvania.
